

Song for teaching days of the week and months of the year

Put finger on your cheek, on your cheek *(Tap your cheek with your right index finger)*

Put finger on your cheek, on your cheek *(Tap your cheek with your right index finger)*

Leave it there about a week

Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday *(Tap your ear when you say each day)*

Put your finger on your ear, on your ear *(Tap your ear with your left index finger)*

Put your finger on your ear, on your ear *(Tap your ear with your left index finger)*

Leave it there about a year

January, February, March, May, June, July, August, September, October, November, December *(Tap your ear when you say each month)*

Put your finger on your finger, on your finger *(Tap your left index with your right index)*

Put your finger on your finger, on your finger *(Tap your left index with your right index)*

Leave it there, let it linger,

Put your finger on your finger, on your finger
