

## Une poule sur un mur (A chicken on a wall)

*A traditional French children's song with actions, and an English translation.*

### French

|                        |                                                              |
|------------------------|--------------------------------------------------------------|
| Une poule sur un mur,  | Pliez les coudes, bougez-les de l'extérieur vers l'intérieur |
| Qui picote du pain dur | Courbez le dos, hochez la tête                               |
| Picoti, picota         | Hochez la tête de gauche à droite                            |
| Lève la queue          | Mettez vos mains sur les fesses et levez-les                 |
| Et puis s'en va.       | Montrez qu'elle est partie                                   |

### English

|                                |                                                                    |
|--------------------------------|--------------------------------------------------------------------|
| A chicken on a wall            | Fold your elbows and move them outwards and inwards to mimic wings |
| Who is pecking some hard bread | Bend over and nod your head                                        |
| Peck peck                      | Nod your head from left to right                                   |
| Lifts her tail                 | Put your hands on your bottom and lift them to mimic a tail        |
| And then she goes.             | Point that the chicken has left                                    |
